PLSMAR will define and propose robust scientific methodologies in support of Maritime Spatial Planning and Blue growth taking in consideration the biogeographic characteristics of the Macaronesian Region and searching for a balance between the diverse maritime sectors and the conservation of the natural marine heritage.

The projects' activities will focus on the coastal and marine waters of the Azores, Madeira and the Canary Islands, finalizing activities by the end of 2019.

The project partners are the following competent administrations and research entities:

Governo dos Açores
Secretaria Regional do Mar, Ciência e Tecnologia

Secretaria Regional
do Ambiente e Recursos Naturais

Consejería de Agricultura,
Ganadería, Pesca y Aguas

Secretaria Regional
de Agricultura e Pescas
